

These icons are used in this module to indicate the following:

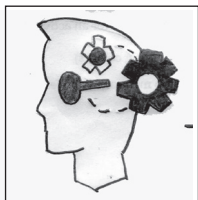

**Objectives** - Learning objectives that describe what students are expected to learn by the end of each chapter.

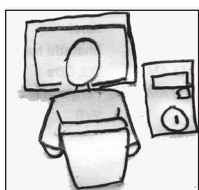

**Watt activity** - To refresh the concepts learned in various subjects. These are related to the topics learnt in all the chapters

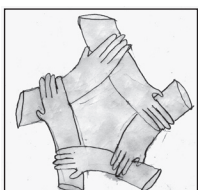

**Pen down activity** - To strengthen and reinforce concepts learned in current ICT chapter. This has to be done in the booklet.

**Logical thinking** - To enhance critical thinking and logical thinking. This will help the teachers understand if the students will be able to apply the ICT concepts learnt.

**Lab activity** - Hands on activity to work on projects and analyze how well students are able to apply what they have learnt. The students have to try these in the computer.

**Fun activity** - Fun filled activities like quizzes, puzzles and maze etc. for the students to be energized.
